

# Euro Debt Crisis

## Countries lending money

- Most of the lending comes from stable countries (Japan, Germany, Britain).
- The US receives most of this credit (\$796B from Japan, \$345B from Britain, \$324B from Germany) and they only have a small portion of the lending.

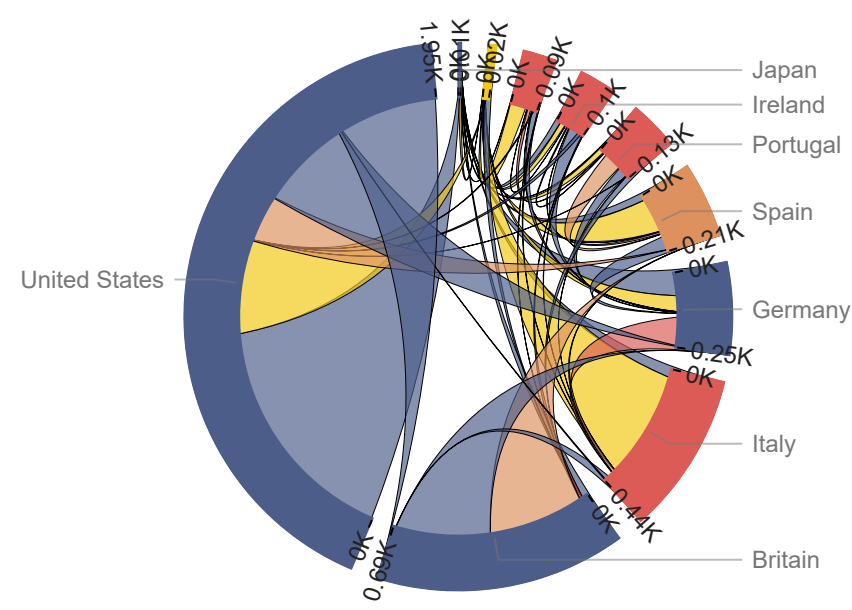

Creditors \$B

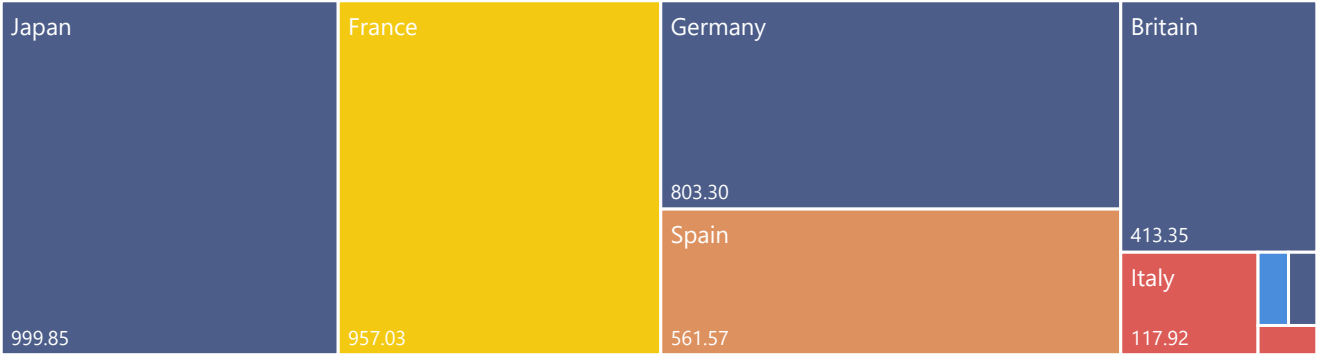

## Countries borrowing money

- France, a low-risk country, is the biggest creditor at \$455.5B for the high-risk countries (Italy, Portugal, Ireland, Greece).
